AP HOGESCHOOL  
ANTWERPEN

Co-creating Prompts for Inner Development is a Blended Intensive Programme (BIP) that invites students from different disciplines and institutions to collaborate in the design of AI-supported exercises that foster personal and professional development.

This programme focuses on the Inner Development Goals (IDGs) competency framework. Throughout the programme, students work in international teams to identify a soft skill or inner competency they would like to improve. Using AI as a tool for content generation and verification, they co-create prompts and exercises that anyone could use to practise that competency through dialogue with an AI system.

The program is offered in face-to-face format in which students will participate on campus (Porto Accounting and Business School – Porto Polytechnic University).

### **Important Info:**

- Before applying, talk to your International Office and make sure you can attend the complete period of the mandatory 5 days of the face-to-face course.
- Applications from the partner universities will have priority.
- Porto Accounting and Business School doesn't provide students' accommodation, which you will need to find and book on your own. However, we are more than willing to supply you with informative links that will help you find affordable alternatives.

### **What else can we say to convince you?**

The vibrant city of Porto, in Portugal, offers an unforgettable experience for students seeking both academic and cultural enrichment. With its dynamic student community and vivid landscapes, Porto is the perfect destination for an inspiring and memorable Erasmus.

**Don't miss out this great opportunity!  
Apply now by filling in the form!**
